Orig. Comm.: Select Committee on Triumph Gulf Coast	7 Y, 0 N	Smith	Hamby

### SUMMARY ANALYSIS

The Gulf Coast Economic Corridor Act (act) was passed by the 2013 Legislature to create Triumph Gulf Coast, Inc., a nonprofit corporation administratively housed within the Department of Economic Opportunity (department). The act directed the corporation to create and administer a trust or “recovery fund” for the benefit of the disproportionately affected counties. The principal of the fund was to be derived from seventy-five percent of all funds recovered by the Attorney General for economic damage to the state resulting from the Deepwater Horizon oil spill.

The bill substantially amends the act to require seventy-five percent of all payments Florida receives pursuant to the settlement agreement between the five gulf states and the BP entities be immediately transferred from the General Revenue Fund to the Triumph Gulf Coast Trust Fund (created in HB 7079) within the department. Triumph Gulf Coast, Inc., is required to establish a trust account at a federally insured financial institution to hold funds released to it from the Triumph Gulf Coast Trust Fund and make deposits and payments. Interest earned in the corporation’s trust account must be deposited monthly into the Triumph Gulf Coast Trust Fund. Triumph Gulf Coast, Inc., is authorized to invest funds in the Local Government Surplus Funds Trust Fund and is required to deposit earnings from such investments into the Triumph Gulf Coast Trust Fund on a monthly basis. The bill repeals existing statutory provisions relating to the recovery fund, the investment of funds, money managers, and investment earnings.

The bill revises provisions in the act governing the corporation’s board of directors and its operations. The bill provides for the Speaker of the House of Representatives and the President of the Senate to each appoint one additional private sector member from one of the four least populous disproportionately affected counties so that two such counties are represented on the board. The current requirement that a member of the board refrain from having any direct interest in any contract, franchise, privilege, project, program, or other benefit arising from an award by the corporation is extended from two years to six years after termination of appointment. The same change is applied to the corporation’s staff. Additional changes address administrative expenses and the corporation’s staff.

The bill revises the type of awards the corporation is authorized to make and the criteria used to prioritize projects and programs. The bill provides that an award from the corporation may supplement, but may not supplant existing funding sources. The corporation is required to ensure that each of the eight disproportionately affected counties directly benefit from awards and to ensure that at least 6 percent of funds appropriated for awards from the Triumph Gulf Coast Trust Fund are expended in each county over the lifetime of the settlement agreement.

The bill repeals s. 377.43, F.S., relating to the disbursement of funds received for damages caused by the Deepwater Horizon oil spill, which was passed during the 2011 Legislative Session.

Effective July 1, 2017, the bill appropriates \$299,000,000 in nonrecurring funds from the Triumph Gulf Coast Trust Fund to the corporation to fund awards for programs and projects authorized in the act. The bill also appropriates \$1,000,000 in nonrecurring funds from the Triumph Gulf Coast Trust Fund to the corporation to pay administrative costs. The bill authorizes appropriated funds to be expended through the 2018-2019 fiscal year.

The bill has an effective date of upon becoming a law.

### I. SUBSTANTIVE ANALYSIS

#### A. EFFECT OF PROPOSED CHANGES:

##### Present Situation

##### **Deepwater Horizon Oil Spill**

On April 20, 2010, an offshore drilling rig known as the Deepwater Horizon exploded, caught fire, and eventually sank, resulting in a massive release of oil and other substances from BP's Macondo well. Initial efforts to cap the well following the explosion were unsuccessful, and for 87 days the well blasted oil and natural gas continuously and uncontrollably into the northern Gulf of Mexico.<sup>1</sup> According to the U.S. District Court's findings of fact, approximately 3.19 million barrels (134 million gallons) of oil were released into the ocean (U.S. v. BP et al. 2015), resulting in the largest offshore marine oil spill in U.S. history.

Cumulatively, over the course of the spill, oil was detected on over 43,300 square miles of the ocean, an area about the size of Virginia. Currents, winds, and tides carried these surface oil slicks to the Gulf states, fouling more than 1,300 miles of shoreline, including beaches, bays, estuaries, and marshes from eastern Texas to the Florida Panhandle.<sup>2</sup>

##### **Deepwater Horizon Settlement - Economic Damages**

On April 4, 2016, a federal court in New Orleans entered a consent decree resolving civil claims against BP arising from the April 20, 2010 Macondo well blowout and the resulting oil spill in the Gulf of Mexico. The settlement resolves the economic loss claims asserted by Florida, Alabama, Louisiana, Mississippi, and Texas; the natural resources claims of the various state and federal trustees; and the Clean Water Act penalties sought by the federal government. Taken together the resolution of claims is worth more than \$20 billion, with Florida receiving a total of \$2 billion for economic damages alone.

Under the economic damages settlement, BP will pay Florida \$2 billion that resolves the economic damage claims arising from Deepwater Horizon incident. Florida will receive payments over the course of several years per an agreed schedule. An initial payment of \$400 million was received in 2016 and, beginning in 2019, Florida will receive annual payments of approximately \$106,666,666 through 2033.<sup>3</sup>

##### **Disbursement of funds received for damages caused by the Deepwater Horizon oil spill**

In 2011, to address the negative economic impacts of the Deepwater Horizon oil spill, the Legislature established section 377.43, F.S., which broadly addressed the use of any funds that the state may receive from any government or private entity for damages caused by the Deepwater Horizon oil spill. Specifically, the legislation:

- Defined the term "disproportionately affected county" to mean Bay County, Escambia County, Franklin County, Gulf County, Okaloosa County, Santa Rosa County, Walton County, or Wakulla County;
- Allowed seventy-five percent of funds received for damages from the oil spill to be used for specified types of expenditures in any disproportionately affected county;

- Allowed the remaining twenty-five percent of such funds to be used for the same specified types of expenditures in any non-disproportionately affected county; and
- Designated the Department of Environmental Protection as the lead agency for expending funds designated for environmental restoration efforts and the Department of Economic Opportunity as the lead agency for expending funds designated for economic incentives and diversification efforts.

### **Gulf Coast Economic Corridor Act**

Subsequent to the 2011 legislation, new legislation known as the “Gulf Coast Economic Corridor Act”<sup>4</sup> was enacted by the 2013 Legislature, and amended in 2014. Unlike the 2011 legislation, this act specifically addresses the use of funds recovered by the Attorney General for economic damages to the state resulting from the Deepwater Horizon oil spill. The intent was to provide a long-term source of funding for efforts of economic recovery and enhancement to the Gulf Coast region.<sup>5</sup>

### **Effect of Proposed Changes**

#### **Triumph Gulf Coast, Inc.**

##### **Funding**

The bill requires seventy-five percent of all payments to the State of Florida pursuant to the "Settlement Agreement Between the Gulf States and the BP Entities with Respect to Economic and Other Claims Arising from the *Deepwater Horizon* Incident," which was entered into on October 5, 2015, in the case styled *In re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico*, on April 20, 2010, MDL 2179 in the United States District Court for the Eastern District of Louisiana, be immediately transferred from the General Revenue Fund to the Triumph Gulf Coast Trust Fund (created in HB 7079) within the Department of Economic Opportunity (department).

Triumph Gulf Coast, Inc. (corporation), is required to establish a trust account at a federally insured financial institution to hold funds released to it from the Triumph Gulf Coast Trust Fund and make deposits and payments. The bill requires interest earned in the corporation's trust account be deposited monthly into the Triumph Gulf Coast Trust Fund. The bill authorizes the corporation to invest funds in the Local Government Surplus Funds Trust Fund, and requires the corporation to deposit earnings from such investments into the Triumph Gulf Coast Trust Fund on a monthly basis.

The bill repeals provisions in the Gulf Coast Economic Corridor Act (act) relating to the recovery fund, the investment of funds, money managers, and investment earnings that were enacted by the 2013 Legislature under the assumption the corporation would receive a single payment from any settlement agreement to manage and spend over a thirty year period. Since, as explained in the Present Situation, the settlement payments are spread over 18 years, this approach is no longer applicable.

##### **Board of Directors**

The bill makes several changes to provisions in the act relating to the corporation's board of directors and their responsibilities. These changes include:

- As of the effective date of this act, increasing the number of board members to seven, with the President of the Senate and the Speaker of the House of Representatives each appointing an additional private sector member from one of the four least populous disproportionately affected counties as identified by the United States Census Bureau in its March 2017 estimates of county population, so that two such counties are represented on the board.
- Extending from two years to six years after termination of appointment, the current requirement that a member of the board of directors refrain from having any direct interest in any contract, franchise, privilege, project, program, or other benefit arising from an award by the corporation. This revision applies only to members serving on the corporation's board of directors on or after July 1, 2017.
- Revising the list of staff the corporation is required to retain to delete the requirement to retain a financial advisor and an economic advisor, but leaving in place the requirement to retain an independent certified public accountant and a legal advisor.
- Limiting the annual salary for any single employee or contracted staff to no more than \$130,000, and limits associated benefits to not more than thirty-five percent of salary.

---

<sup>29</sup> s. 288.8018, F.S.

- Explicitly requiring, rather than directing the corporation to require, all employees of the corporation to comply with the code of ethics for public employees under part III of ch. 112, F.S.
- Extending from two years to six years after termination of appointment, the current requirement that retained staff refrain from having any direct interest in any contract, franchise, privilege, project, program, or other benefit arising from an award by the corporation.
- Limiting the corporation's allowed administrative costs to amounts appropriated for this purpose.

### Awards

The bill substantially revises provisions in the act governing awards the corporation is authorized to make. As revised, the following types of awards are allowed:

- Ad valorem tax rate reduction within disproportionately affected counties.
- Local match requirements of s. 288.0655, F.S., (Rural Infrastructure Fund) for projects in the disproportionately affected counties.
- Public infrastructure projects that are shown to enhance economic recovery, diversification, and enhancement of the disproportionately affected counties.
- Grants to local governments in the disproportionately affected counties to establish and maintain equipment and trained personnel for local action plans of response to respond to disasters, such as plans created for the Coastal Impacts Assistance Program.
- Early childhood development and educational programs and services for children from birth to 5 years of age in the disproportionately affected counties.
- Grants to support programs that prepare students for future occupations and careers at K-20 institutions that have campuses in the disproportionately affected counties.
- Grants to support programs that provide participants in the disproportionately affected counties with transferrable, sustainable workforce skills that are not confined to a single employer.
- Grants to the tourism entity created under s. 288.1226, F.S., for the purpose of advertising and promoting tourism, Fresh From Florida, or related content on behalf of one or all of the disproportionately affected counties.

The following currently authorized types of programs and projects are deleted:

- Payment of impact fees imposed within disproportionately affected counties.
- Administrative funding for economic development organizations located within the disproportionately affected counties.
- Local match requirements of ss. 288.0659, F.S., (Local Government Distressed Area Matching Grant Program), 288.1045, F.S., (Qualified Defense Contractor and Space Flight Business Tax Refund Program), and 288.106 F.S., (Tax Refund Program for Qualified Target Industry Businesses).
- Economic development projects in the disproportionately affected counties.

The bill also revises provisions directing priority to be given to projects and programs meeting certain criteria to reflect the deletion of some types of projects and programs from the list of eligible programs and projects. Current provisions governing contracts with awardees are revised to require awardees to regularly report to the corporation the expenditure of funds on a schedule determined by the corporation.

The bill requires the corporation to publish on its website, no less than 14 calendar days prior to making an award, its intent to make the award and a summary of the proposed project or program to be funded.

The bill provides that an award from the corporation may supplement, but may not supplant existing funding sources. The corporation is required to ensure that each of the eight disproportionately affected counties directly benefit from awards and to ensure that at least 6 percent of funds appropriated for awards from the Triumph Gulf Coast Trust Fund are expended in each county over the lifetime of the settlement agreement.

## **Repeal of 2011 Statute**

The bill repeals s. 377.43, F.S., which was passed during the 2011 Legislative Session and, for purposes of the eight disproportionately affected counties, was supplanted by the passage of the act in 2013. The net effect is to repeal language that addresses the uses of the remaining 25 percent of funds received by the state from any governmental or private entity for damages caused by the Deepwater Horizon oil spill.

## **Appropriations**

Effective July 1, 2017, the bill appropriates \$299,000,000 in nonrecurring funds from the Triumph Gulf Coast Trust Fund to the corporation for deposit into the trust account to fund awards for programs and projects authorized in s. 288.8017, F.S. In addition, the bill appropriates \$1,000,000 in nonrecurring funds from the Triumph Gulf Coast Trust Fund to the corporation for deposit in the trust account to pay administrative costs. The bill authorizes funds appropriated in the proposed bill to be expended through the 2018-2019 fiscal year.
